

Mytholmroyd Flood Alleviation Scheme

The Environment Agency is working in partnership with Calderdale Council and VBA to deliver the Mytholmroyd Flood Alleviation Scheme

Information Bulletin No. 12 – August 2018

Traffic Management & Pedestrian Crossing

The traffic management is moving this week from its current location between Midgley Road/New Road to the Caldene Bridge area. This will mean that the pedestrian crossing will move to the junction by Grange Dean/New Road. Please take extra care and always use the operational crossing.

CONSTRUCTION UPDATE

Area H – White Lee Clough Culvert

Approximately 60 tonnes of gravel have now been removed from the culvert by hand. A detailed inspection can now be undertaken to establish what repairs are required.

Area M – Drainage Works

The new section of drainage is now in place in both Midgley Road and Burnley Road. Further works to replace the gullies will be carried out later this year.

Area E – Caldene Bridge

Piling work will shortly commence on the right bank to enable construction of the northern pier for the new bridge.

Area C – St. Michael's Church

Piling works continue with 102 out of 132 piles now in place. These piles will facilitate the widening of the channel and will be back-driven to the correct height. We will continue to monitor noise and vibration levels throughout the work. On completion of piling these will be clad with natural stone.

The concrete L shaped walls are almost complete at the site of the old Post Office. The natural stone cladding works will commence next month.

Area G - Cragg Brook

Preparation work for the new footbridge is underway. We aim to complete these works and open the footbridge mid September.

CONSTRUCTION OPEN DAY

We are holding a Construction open day on Thursday 20th September at the Community Centre. The project team will be available to talk about the progress of the scheme so far and provide information about the work ahead. More details to follow!

We now have a defibrillator at our Red Acre

office site. If access is required out of hours, please find the details on the gate of the office site.

Contact us!

If you have any concerns or questions please come and talk to a member of the team at the Red Acre Site or call in to the Community Centre on a Friday morning from 9am – 12 noon. Alternatively, you can contact us by email - mytholmroydFAS@environment-agency.gov.uk
